Stepping into Red Squirrel feels like discovering a local gem where comfort food meets character—and their menu is a testament to that. I started my culinary adventure with their **Chicken Salad Plate**, a refreshing blend of tender chicken and crisp greens that instantly set the tone for what was to come. The **Julienne Salad**, with its colorful medley of meats and cheeses, offered a harmony of textures and flavors that could convert even a salad skeptic.

But where Red Squirrel truly surprises is with their **Specialty Omelettes**. The **Tuna Sliced Egg** omelette, unconventional but undeniably delicious, combines protein-packed ingredients in a fluffy egg blanket that's both satisfying and inventive. Equally surprising was the **Macaroni & Cheese Omelette**—yes, you read that right. Imagine creamy mac nestled inside an omelette. It's rich, indulgent, and just quirky enough to work brilliantly.

If you've got a sweet tooth or simply love breakfast all day, the **Griddle Favorites** are non-negotiable. The **3 French Toast** slices come perfectly golden, with just the right balance of crisp edge and custardy center. The **Waffle** is a classic done right—crisp outside, pillowy inside, and practically begging for syrup.

For sandwich lovers, Red Squirrel offers a hearty stack with their **Triple Decker** lineup. The **Ham Beef Swiss Cheese** is a meaty masterpiece, while the **Ham Beef Sliced Egg** brings an extra layer of richness. Prefer a slightly lighter bite? The **Double Decker** options like **Ham Sliced Turkey** and the robust **Beef-Turkey** combo still deliver big flavor without going overboard.

Each dish feels like a nod to home-cooked tradition with a playful twist. Red Squirrel's menu isn't just food—it's a flavorful experience waiting to be devoured.
